

JEWISHcolorado’s Real Estate & Construction Network (RECN) was born of the idea that industry can drive philanthropy, that leaders in the field of real estate, brought together for networking, education, and exchange of industry standards, can have a positive impact on their community. RECN had its kick-off event in September 2022, and since then has held a number of buzzworthy events.

In addition to quarterly events, RECN also offers:

Annual travel opportunities centered around real estate and development

Mentoring program geared toward 25-35 year-old professionals
(coming fall 2023)

A pilot Real Estate Advisory Board to advise Non-Profits on real estate issues
(coming soon)

All of this work requires sponsors — both on the corporate level as well as for individual events. Sponsorship gives you the opportunity to get your name and logo in front of leaders in the real estate industry. Check out our sponsorship matrix for more information on the benefits of sponsorship of the Real Estate & Construction Network.

RECN brings together professionals from across the landscape of real estate to network, learn, and discuss best practices all while supporting the programs of JEWISHcolorado. RECN is guided by the Real Estate & Construction Network Council.

The Council is comprised of dedicated leaders in the real estate industry who are working to bring the real estate community of Colorado together to support the Jewish community. Through networking events, mentoring and leadership programs and real estate related counsel for Colorado non-profits, RECN offers something for everyone. These unique social and professional programs offer opportunities for RECN members to expand their personal and professional networks, advance their careers, help nurture the next generation of real estate professionals all while building a better and stronger Jewish community in Colorado.

Thank you to our corporate sponsors
